Application is hereby made for connection to the Fall Creek Regional Waste District Sewer System for the above listed property - Permit Type: Residential ☒, Commercial ☐, Industrial ☐, or Governmental/Institutional ☐. User Information

All workmanship and materials shall conform to the standards of the District Ordinance as described in Ordinance 84-2 and 84-3 as amended. Acceptance and approval must be made by the District inspector or his duly authorized representative before backfilling and final connection is made to the main sewer lines. Any violation of applicable regulations will cause all lines and appurtenances in violation to be removed and replaced at the owners expense.

The Fall Creek Regional Waste District is responsible for the inspection, approval of materials, and installation techniques only. All costs for materials and installation and any liabilities resulting from same is the sole responsibility of the property owner.

I have read and fully understand the above provisions and agree to comply by said provisions.

Water is a vital resource for all life on Earth. It is essential for drinking, cooking, and cleaning. In the Fall Creek Regional Waste District, we are committed to providing clean, safe water to our community. We have implemented various water conservation programs to reduce waste and protect our water resources. These programs include public education campaigns, water audits for businesses and homes, and the installation of water-saving devices. We encourage everyone to join us in these efforts to ensure a sustainable future for our region.

The Fall Creek Regional Waste District is a member of the Western Piedmont Council of Governments. We are committed to working with our partners to address regional issues and improve the quality of life for all residents.

For more information about our water conservation programs, please contact our office at (704) 871-1234. We are dedicated to providing excellent customer service and ensuring the health and safety of our community.

Thank you for your support and commitment to a sustainable future.

Water is a precious resource that we must protect and conserve. By implementing water conservation programs, we can reduce waste and ensure that we have enough water for future generations. We encourage everyone to take small steps to conserve water, such as turning off the tap when brushing teeth, taking shorter showers, and fixing leaks. Together, we can make a difference and ensure a sustainable future for our region.
